

About Me

If there's one thing to know about me, it's that I love what I do. I taught myself to code in high school, and it's been a nonstop learning experience since. Coding is my passion.

My motivation to learn web dev originated from my passion for entrepreneurship. I've always had an entrepreneurial and creative mindset, and the internet was, abundant with opportunity.

On a personal level I preach the power of positivity and the law of attraction. My motivation to succeed stems from a belief that anything is possible if we want it enough and are willing to work for it.

Experience

Gollums Goods

Nov 2013 - Jan 2014

Owner

Gollums goods was my very 1st business. I bought Lord of the Rings prop replicas from China and resold them on eBay and Etsy for profit. I grew the company to \$10,000 a month in revenue, when I reached unforeseen issues with Warner Bros. over copyright matters forcing me to close down the business.

Smoke Hut

Oct 2016 - Oct 2017

Owner

Smoke Hut was an online head shop. Marijuana paraphernalia, is banned from most mass advertising channels like Facebook and Google. I had to get creative in order to obtain any traffic. I ended up growing the Facebook page to 17,000 and even created a small passive income stream using Pinterest. I closed Smoke Hut after relocating to Portland in October 2017.

Deja Vu Smoke

Nov 2016 - Oct 2017

Manager

I managed a smoke shop for almost a year. As manager my duties included scheduling employees, inventory management, handling customer disputes, and payroll among others. I left due to relocation to Portland.

VibeLava

Jan 2018 - Jan 2019

Owner

VibeLava.com was an ecommerce site for trippy hippie home decor and apparel. The hands on experience I acquired running VibeLava has taught me a number of valuable skills. I managed everything. This included web dev, SEO, social media, content creation, advertising, product photography, and so much more.

Freelance Web Dev

Jan 2018 - Present

Freelance Web and Mobile Applications Developer

I offer my web and mobile application development expertise to anyone with a project they need help with. My freelancer.com account, contains an extensive list of 5 star reviews that I've built up.
